

SEPEHR ZOHOORI RAD

SOFTWARE DEVELOPER

[in/sepehr-zohoori-rad](#) | [G/Spezie](#) | [sepzie.github.io](#) | zohooris1@gmail.com

TECHNICAL SKILLS

Languages

Python Java
SQL C
HTML CSS
JavaScript Kotlin

Frameworks/Platforms

Android React
Flask Django
Django FastAPI
Firmware

Other Skills

REST APIs Bluetooth
Firebase Docker
Excel
Git

WORK EXPERIENCE

Software/Firmware Developer

May 2022 – December 2022

picoTera Electronics, Vancouver

- Wrote firmware in **C** for **PSoC 6 MCU** and worked on an **Android** app in **Java**
- Developed **embedded** programming skills and familiarity with microcontroller **peripherals**
- Improved and shipped a **pedestrian safety** system using Bluetooth and GPS
- Developed a **threading system** to transform a single-core application into a dual-core application
- Gained experience in **quality assurance**, and running checklists
- Left a positive legacy by writing **clean, refactored, well-documented code**

PROJECTS

Sing With Me

August 2022 – October 2022

Personal Project

- Developed a **front-end** app that helps with learning to sing new songs
- Used the **React** framework combined with various **npm** libraries
- Self-taught **Web APIs**, **local storage**, **React hooks** and **asynchronous** functions.

Outliner Discord Bot

January 2022

Group project – nwHacks2022 Hackathon

- Developed a **Discord bot** that answers questions about course outlines with a team of four
- Integrated the **OpenAI API** and assisted in web scraping and parsing with **Beautiful Soup** using **Python**

Trip Monitoring Dashboard

January 2023

Group project – QDS Hackathon

- Analyzed over **5GB of data** and developed a web dashboard to visual the result of the analysis.
- Worked on **REST API** for our backend, developed using **Flask** framework on **Python**
- Intergrated **Google Maps API** into our **React** front-end.

EDUCATION

Computer Systems Technology Diploma Sep 2021 – Dec 2023

BC Institute of Technology

Cumulative average: 87%

Engineering (1 year)

2015 – 2016

Simon Fraser University

Computing courses: CMPT 1110 C++ Programming (B-)

Psychology (2 years)

2018 – 2020

Douglas College

Relevant courses: PSYC 2300 Data Analysis in Psyc (A)
